### **Coronavirus Update – Chain Customers**

Dear Valued Customer:

The Coronavirus outbreak continues to be an ever-evolving situation and Paradise is committed to mitigating any threats to our employees and our customers. We are diligently working to gather relevant information to assess risk and ensure thorough mitigation strategies are in place. At this time, we would like to provide the following status update:

- Paradise has three separate manufacturing facilities strategically located in the United States that can produce your signature sauces. This provides an exceptional level of protection to your supply chain.
- Our Procurement Team is working closely with our key suppliers to ensure there is no disruption in service and to identify alternate sources for ingredients that have been identified as higher risk. At this time, our Suppliers have stated they do not foresee a disruption in supply, and they have contingency plans in place in the event the outbreak continues to escalate
- Paradise has assigned personnel to monitor and educate our team members with the most up to date information as it pertains to the Coronavirus utilizing the CDC, FDA, and WHO resources.
- Paradise has increased sanitation procedures within the facilities and provided education on the Coronavirus and prevention methods to all of our employees.

As a valued partner, Paradise is committed to help grow and protect your brand. We will continue to provide updates as appropriate to keep you informed.

Regards,

Charita Chapman  
Director of Quality  
Paradise Tomato Kitchens
